"THE GREAT CIRCUS MYSTERY"

MAR -2 1925

Featuring BONOMO

Episode #2.

* * *

Ladow leaps into the hippodrome race and stops the horses, saving Trizie from almost certain death. Then the mystery-man visits Trixie after he steals one of the pieces of the cigarette case, and gives it to her. She hides it in her bosom.

Adams, suspecting that she possesses the valuable portion of the case, visits her and demands it. She denies knowing anything at all about it. She loses one of the pieces. Adams snatches it up and dashes out of the tent to continue in his search.

He orders his men to loosen the mighty elephant so as to attack the sand diviner's tent. The elephant, delighted at its new freedom, rumbles along, overturning tents right and left. He strikes the tent wagon where Trixie is crouching.

Instantly the girl is aware of the wagon running free. It plunges over a cliff, into a rushing stream, far below. Ladow pursues and leaping into the water, he breaks open the door and rescues the terror-stricken girl and carries her back to the circus ground.

That night a great storm breaks loose. The wind tears up the tents. A fire results in the big tent. Trixie falls and the mad flames lick about her as the episode ends...and Bonomo holds the great center tent pole which momentarily threatens to tumble with a crash.
